

Treadwell Therapeutics Announces Presentations at the 2022 San Antonio Breast Cancer Symposium Featuring a Clinical Trial Update on the CFI-402257 and CFI-400945 programs

Description

NEW YORK, Nov. 21, 2022 /PRNewswire/ — Treadwell Therapeutics, a clinical-stage biotechnology company developing novel medicines for highly aggressive cancers, today announced that four abstracts highlighting CFI-402257 and CFI-400945, the Company’s potent and selective inhibitors of TTK and PLK4, respectively, have been accepted for presentation at the 2022 San Antonio Breast Cancer Symposium (SABCS) being held from December 6-10, 2022 at the Henry B. Gonzalez Convention Center in San Antonio, Texas.

“We are grateful that several abstracts highlighting our TTK and PLK4 inhibitor programs have been selected for presentation,” said Dr. Michael Tusche, Treadwell co-CEO. “We look forward to additional data from these studies, as we further characterize the utility of our agents in various breast cancer settings.”
